ESPACE GAZON

LAWN AREA

ÉCONOMIE D'EAU 

WATER SAVER 

La majorité de nos gazons en plaques nécessitent jusqu'à **50 % moins d'eau** une fois bien implantés. Ainsi, ils conservent leur couleur verte plus longtemps par temps de sécheresse et de canicule.

The majority of our turfgrasses require up to **50% less water** once established, so they retain their green colour longer in dry and hot weather.

ESPACE GAZON

LAWN AREA

➔ Gazon Éco-Trèfle
Eco-Turf Sod

➔ Gazon BIOdiversité Biologique
BIOdiversity Organic Sod

BIODIVERSIFIÉ  BIODIVERSE 

SANS PESTICIDES 

PESTICIDE-FREE 

Sept de nos gazons sont biodiversifiés, c'est-à-dire qu'ils sont composés de différentes espèces qui contribuent à la renaturalisation des terrains et qui favorisent une diversité de plantes, d'insectes et d'animaux. Seven of our sods are biodiversified, meaning they are composed of different species that contribute to the naturalization of the land and promote a diversity of plants, insects, and animals.

(TROP PEU CONNU)

LE GAZON : UN ALLIÉ POUR LA PLANÈTE

GRASS: A LITTLE KNOWN ALLY FOR THE PLANET

En tant que producteur de gazon en plaques, nous nous soucions de l'environnement et c'est pourquoi nous sommes très fiers de proposer des produits qui contribuent positivement à la lutte aux changements climatiques!

As a sod producer, we care about the environment. That's why we're very proud to offer products that fight climate change in a positive way!

FAVORISE LA BIODIVERSITÉ PROMOTES BIODIVERSITY

Nos gazons innovants, nos semis d'engrais vert et nos applications de compost rendent le sol vivant et résilient

Our innovative sods, our green manure sowing, and our compost applications make the soil alive and resilient

Le gazon protège le sol et le nourrit grâce à son système racinaire super performant

Grass protects the soil and nourishes it through its highly efficient root system

Le gazon abrite une multitude d'espèces de micro-organismes bénéfiques, d'insectes et d'animaux autant à la surface que dans le sol

Grass hosts a multitude of beneficial microorganisms, insects, and animals both on the surface and in the soil

DES BIENFAITS INDÉNIABLES. LE GAZON :

- Crée des îlots de fraîcheur
- Contribue à la filtration de l'air
- Contribue à la captation du carbone dans le sol
- Produit de l'oxygène

UN SOL VIVANT ET EN SANTÉ RÉDUIT LES BESOINS EN EAU ET EN ENGRAIS

- Tondez à 4 po de haut et évitez les besoins en eau
- Nul besoin d'arroser un gazon bien implanté, car il entrera en dormance en période de sécheresse
- Arrêtez la tonte en période de sécheresse prolongée

UNDENIABLE BENEFITS. GRASS:

- Creates cool islands
- Helps filter air
- Traps carbon in the soil
- Produces oxygen

LIVING, HEALTHY SOIL REDUCES THE NEED FOR WATER AND FERTILIZER

- Mow 4" high to avoid the need for water
- Well-established grass does not require watering; it will go dormant during dry periods
- Stop mowing during prolonged drought

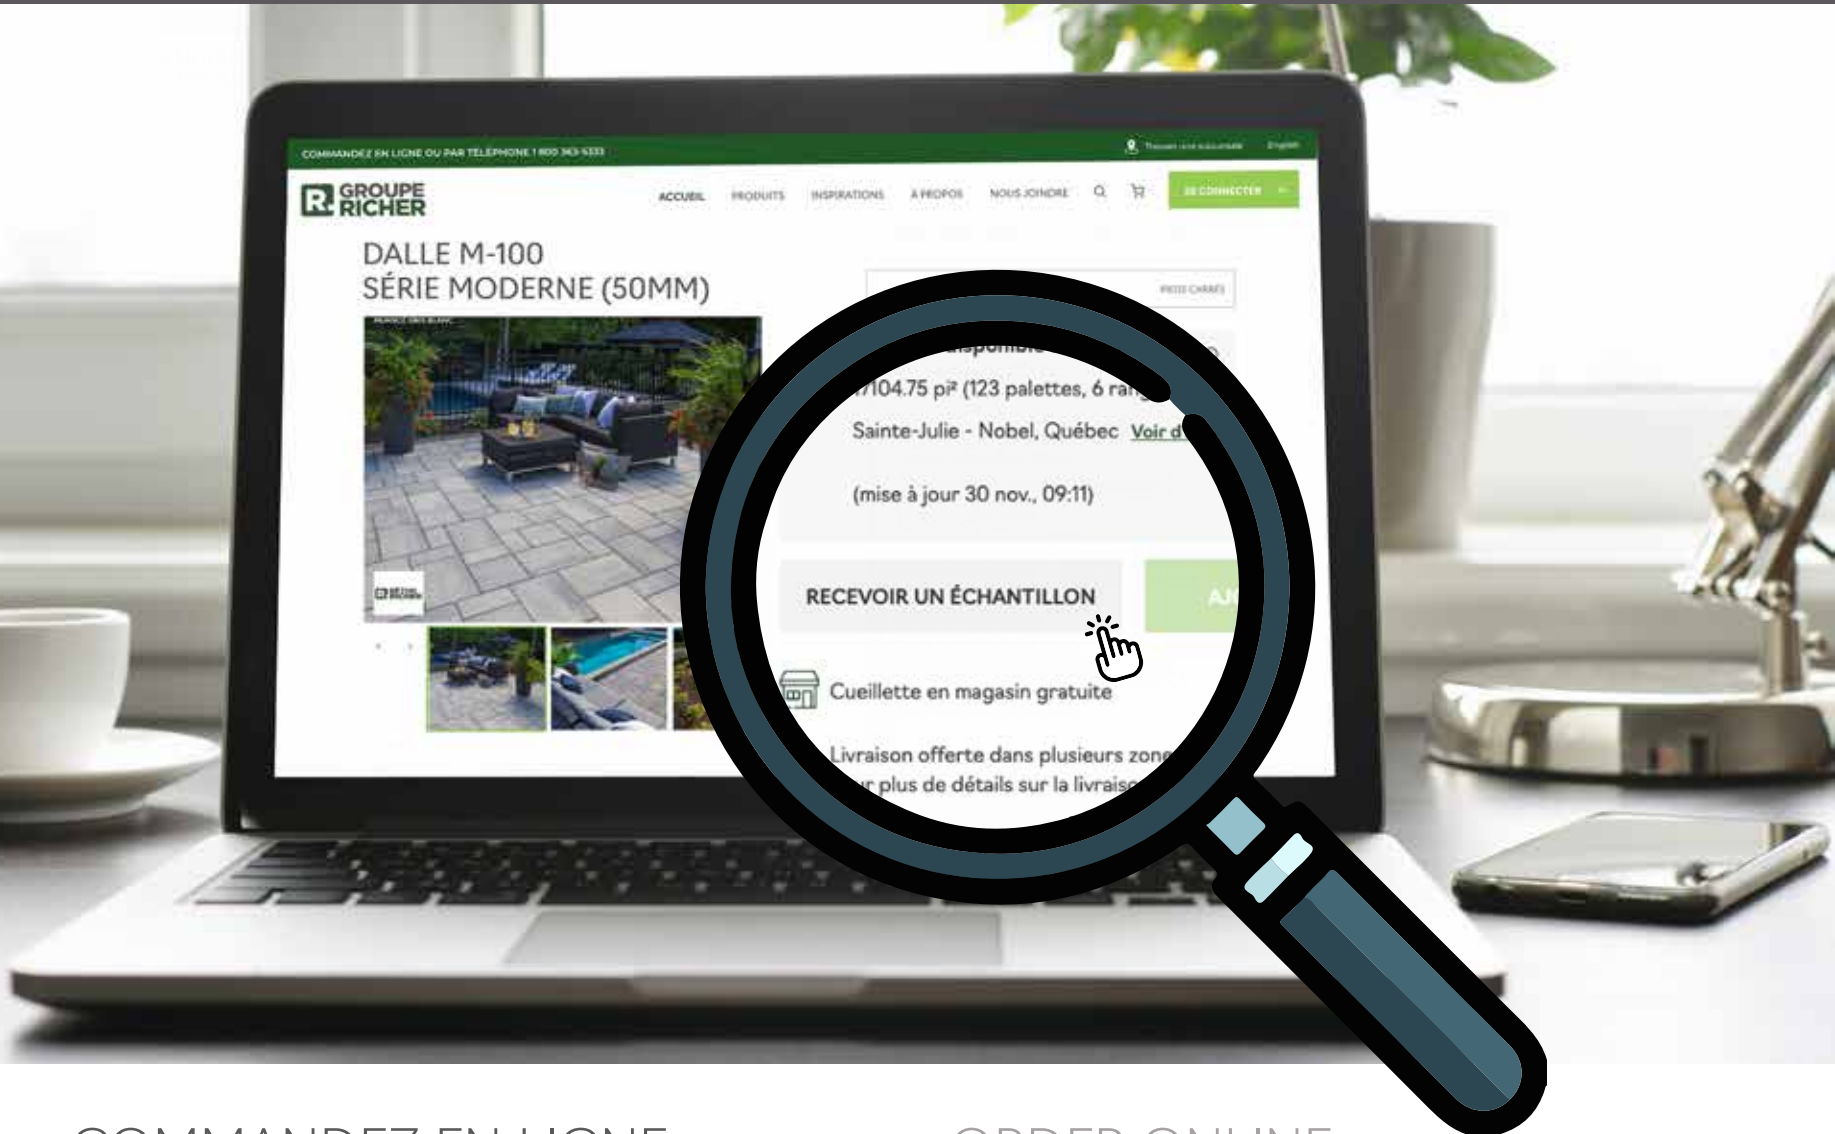

SERVICE D'ÉCHANTILLONS

SAMPLE SERVICE

GRATUIT - FREE

COMMANDEZ VOS ÉCHANTILLONS DE PAVÉ, DALLE OU MURET!
ORDER YOUR PAVER, SLAB OR WALL SAMPLES !

COMMANDEZ EN LIGNE

Effectuez la cueillette dans une succursale ou faites livrer directement à votre porte, et ce, sans aucuns frais, partout au Québec et en Ontario!

ORDER ONLINE

Our unique service allows you to make the right choices! Pass by one of our locations for pick-up or have your order delivered right to your door free of charge, anywhere in Quebec and Ontario.

STYLE ET DURABILITÉ : SANS COMPROMIS

UNCOMPROMISING STYLE AND DURABILITY

Des produits de béton haut de gamme pour créer vos espaces extérieurs de **rêve!**
High-quality concrete products to create the outdoor space of your **dreams!**

Contrairement aux produits de béton offerts dans les grandes surfaces, ils sont :
Unlike the concrete products available in big box stores, they are:

- ↳ Conçus pour être durables, résistants et de grande qualité
Designed to be long lasting, durable and of high quality
- ↳ Disponibles dans plusieurs couleurs pour s'agencer à tous les styles
Available in many colours to match any style

- ↳ Offerts dans plusieurs formats afin de créer des plans de pose uniques
Available in a variety of formats so you can create unique layouts
- ↳ Garantis par le fabricant
Guaranteed by the manufacturer

DALLE OU PAVÉ? SLAB OR PAVER?

Terrasses, passage piétonnier dans une cour arrière, etc.
Use them for terraces, backyard walkways, etc.

Stationnement, garage, etc.
Use them for driveways, garages, etc.

DALLE :

La dalle est conçue pour être utilisée dans des espaces extérieurs résidentiels piétonniers comme pour une terrasse. Offerte majoritairement dans une épaisseur de **50-60 mm**, elle n'est pas conçue pour être installée dans un stationnement ou un garage.

PAVÉ :

Contrairement à la dalle, le pavé est conçu pour être installé dans des stationnements résidentiels ainsi que des espaces commerciaux. Il est offert principalement dans une épaisseur de **70-80 mm**.

SLABS:

Slabs are designed to be used in residential outdoor pedestrian areas as well as for patios. Available mainly in a **50-60 mm** thickness, they are not designed to be installed in a driveway or garage.

PAVERS:

Unlike slabs, pavers are designed to be installed in residential driveways as well as commercial spaces. They mainly come in a **70-80 mm** thickness.
